A successful „Schüttgut“ in Dortmund

12.05.2017 Newsletter

The trade fair „Schüttgut“ has proven its position as an important event for bulk solids technology with more than 6,500 visitors and 500 exhibitors. The quantity of visitors on the Infastaub stand confirms the significance of the fair, too.

The Infastaub staff was in continuous duty and discussed about suitable filter technology and dedusting solutions with the visitors.

The transparent model of a silo filter attracted the audience again. Connected to compressed air, the reaction of installed filter media could be observed vividly during cleaning with a pulse of compressed air. This is usually impossible with filter units in operation that simply have a non-transparent metal housing.

The exhibitors evening had a surprise for Infastaub. The 2. place of the SES-awards was given to Infastaub. Among the criteria for the winning were the amount of invited visitors by the exhibitor, clicks on the online profile on the „Schüttgut“ website and amount of products within the online profile. The prize is awarded on all trade fairs of the Solids European Series in Antwerp, Basel, Dortmund, Krakow, Rotterdam and St. Petersburg.
