Dedusting for "fools"

03.12.2019 News

A team of authors from Infastaub has created the lexicon "Infastaub Know-How: basic principles of dedusting". It is a unique reference work about dedusting. Quasi "dedusting and filtering technology for fools".

The lexicon provides a comprehensive knowledge about dedusting and filtering technology as well as the periphery.

Now the lexicon was published first-time in a bound version. In case of interest we are delighted to send a copy. A download version of the lexicon is available on our website.

Market place

You find the market place for used filter units here.
