First time at the IFAT in Munich

21.11.2015 News

Together with the VDMA and seven further VDMA member companies, Infastaub will exhibit next year at the IFAT in Munich, the world's leading trade fair for environmental technologies.

The claim "Air pollution control is value added! Preventive. Integrated. Recovering" stands for the innovative technical solutions of air and de-dusting technology.

Next to the joint stand the theme park "Live Garden" will make air pollution control a true experience. Important subjects of the air pollution industry are presented in a visual and exciting way to the fair visitor.

The joint stand is located in hall B3. The fair opens its gates from 30.05.2016 to 03.06.2016.
