News

Infastaub sales office opened in France

26.02.2016 News

Infastaub has opened a sales office in France on January 1st, 2016. The manufacturer of filter plants gets a direct access to the strong French market thereby.

Head of the French office will be the longterm industry expert Frank Scheibel. He is successfully engaged with dedusting technology already for many years and has worked for well-known manufacturers in this business. About targets and activities of the new sales location Scheibel says: "I am very much excited about this challenging task. Strengthening of existing customer relations and the brand Infastaub in France as well as the support of new business are my personal objectives. I will provide Infastaub with versatile knowhow and my experiences of the last years."

"We will use the local and direct presence to expand our customer basis and to continuously expand our market share in France. Customer proximity and local service are decisive characteristics of our company. We seamlessly realise this strategy in France, too", so Jens Kampmeyer, Head of Sales. The entire product range will be serviced, whereas the main focus are dedusting applications within chemical and pharmaceutical industries.
