Finally Powtech again

We had to wait three years for this moment. On 26 September 2022, the time had finally come and we were able to welcome our customers, interested parties, friends and colleagues to our exhibition stand at Powtech.

We had to wait three years for this moment. On 26 September 2022, the time had finally come and we were able to welcome our customers, interested parties, friends and colleagues to our exhibition stand at Powtech in Nuremberg. Waiting for this event was worth it after the forced break, because only at Powtech there is a 360° view on everything in the area of process engineering.

The personal meetings at our stand also showed that trade fairs are an indispensable marketing tool. Online events were a suitable alternative, but they are not an equal substitute. The basic idea of a trade fair is communication between people. The technical stuff can be researched on websites, but the personal contact is what makes a trade fair. New business relationships can be established and existing ones deepened. And it is precisely this personal customer contact that plays an important role in the decision to buy investment goods.

So we're already looking forward to next year, when it's time again to exchange knowledge, a friendly game at our table soccer and visit Infastaub. We have already booked our stand for Powtech 2023 directly during the trade fair.
